- Does your dog ignore you when you call it or give it a command?
- Does your dog have great attention in your home but can't concentrate when faced with a distraction?
- Is your dog unreliable off leash?

If you answered yes to any of these, then Focus class may help you gain control of your relationship with your dog. Focus is designed to improve dogs' attention on their owners and help owners become better leaders to their dogs. It is a great class to take before pursuing competitive sports, such as agility or obedience, with your dog. It is also helpful for anyone who feels that their dog has become the "alpha" member of the household.
