

Therapy Dog Class

Starting in January, Town & Country will offer a special short-course to help you prepare your dog to become certified as a Therapy Dog.

Therapy dogs provide affection, comfort, support and friendship to people in hospitals, retirement homes, nursing homes, mental institutions, schools, prisons and stressful situations such as disaster areas.

Class will consist of fun exercises that will sure up your therapy performance and prepare you for certification.

Our 4 week course will teach you the ins and outs of therapy work:

- What a typical therapy visit is like
- how to become registered as a Therapy Team
- How to find places to visit after you do.

Prerequisite: Dogs who register for this class must first have passed the AKC Canine Good Citizen test.

For more information and to register – see the Town & Country front desk or call **919-387-7833**.
